

EZ-Level Grader Blade

The EZ-Level is the ultimate tool for grading/leveling. The EZ-level eliminates potholes and “the washboard effect” in gravel parking lots and driveways. The EZ-Level is more effective than other box blades and angle blades due to it’s unique design. The EZ-Level requires no special operator skills to use. The EZ-Level is available in both a 10’ and 12’ working width.
